Subject Index

a

abortion, spontaneous, and grieving, *May, p. 99
adult respiratory distress syndrome, *February, p. 107
alcoholics, esophageal varices in (*info pl*), January, p. 24
alcoholism, Rand Corp. releases report on (*news*), April, p. 183
amebiasis, drug therapy for (*info pl*), May, p. 23
aminoglycosides, proper use of, *May, p. 125
aminophylline: modern approaches to therapy, *January, p. 154
amniotic fluid infections, intercourse and (*tip*), April, p. 170
analgesic nephropathy (*info pl*), January, p. 21
analgesic polypeptides: the endorphins, *March, p. 155
'anemia of senescence', study cites, as a clinical reality (*med*), April, p. 156
angel dust users, hair assay pinpoints (*med*), March, p. 161
angina pectoris, molsidomine and (*tip*), May, p. 180
angiotensin-converting enzyme (*tip*), February, p. 173
anorexia, treatment goal for: nutritional rehabilitation (*news*), June, p. 125
antianaphylaxis for contrast-media allergy is described (*med*), May, p. 173
antiparasitic drugs, *March, p. 132
antiplatelet drugs, prevention of thrombosis with, *May, p. 166
aortic valve endocarditis (*tip*), January, p. 180
arthritis, wrist surgery appears effective in abating (*med*), April, p. 157
aspirin, safety packaging of (*tip*), February, p. 174
aspirin dosages for infants and children (*tip*), April, p. 167
asthma attacks, self-hypnosis seems to diminish (*med*), May, p. 173
atherosclerosis, diminished platelet survival is linked to (*med*), March, p. 165
atresia, choanal (*tip*), April, p. 169
atrial fibrillation, chronic, verapamil in (*tip*), January, p. 185

b

bacteremia, unsuspected, and *Hemophilus influenzae* (*tip*), March, p. 190
bacteriuria, asymptomatic, in adolescent girls (*tip*), March, p. 171
beta blockers and glaucoma, *April, p. 150
birthmarks with medical significance (*tip*), March, p. 188
bladder and hip pain, concomitant (*info pl*), May, p. 24
bleeding disorders, diagnosis and management of, *January, p. 146
blood gases, arterial, understanding, *March, p. 112
blood substitute, strides made in use of (*news*), March, p. 203
bradykinin, circulating, in children (*tip*), March, p. 188
breast cancer
—detection of (*ed*), February, p. 92
—diabetes insipidus and (*tip*), January, p. 172
—primary, treatment of (*ed*), March, p. 89
breast-fed and artificially fed infants, morbidity in (*tip*), March, p. 180
breast-fed babies, study indicates that, visit doctors less (*news*), January, p. 210
bronchoscopy, fiberoptic, complications of (*tip*), January, p. 195
bug bites and stings, *May, p. 90

c

Campylobacter enteritis (*tip*), May, p. 189
cancer
—breast, detection of (*ed*), February, p. 92
—breast, diabetes insipidus and (*tip*), January, p. 172
—breast, primary, treatment of (*ed*), March, p. 89
—lip, recurrent, risks of, are calculated (*med*), January, p. 167
—total thyroidectomy for (*tip*), March, p. 190
—urothelial, may be linked to occupational factors (*med*), February, p. 170
cancer detection, new guidelines for, create stir (*news*), May, p. 203
carcinoma, undifferentiated, in young men (*tip*), January, p. 177
cardiac arrest, fluorescein and (*tip*), May, p. 195
cardiac death, sudden, drug reduces incidence of (*news*), April, p. 179
cardiac stress, psychophysiologic response is used to test (*med*), March, p. 166
cardioplegia, hypothermic potassium (*tip*), April, p. 162
carotid plaque, development of (*tip*), February, p. 181
carpal tunnel syndrome, dialysis patients may develop (*med*), January, p. 161
catheters, intra-arterial, septic endarteritis and (*tip*), March, p. 171
cellulitis, periorbital and facial, *February, p. 98

cesarean section and perinatal mortality (*tip*), January, p. 193
child abuse and neglect, cutaneous manifestations of (*tip*), March, p. 176
child behavior assessment in family practice, *April, p. 142
Chlamydia trachomatis (*tip*), January, p. 195
cholate sodium infusion for retained stones (*tip*), March, p. 174
cholecystitis, acalculous, and hyperalimentation (*tip*), April, p. 167
chondromalacia patellae and the painful knee, *January, p. 117
cimetidine and the circulatory system (*tip*), May, p. 188
cirrhosis risk, study elucidates, in liver disease (*med*), January, p. 161
computerized tomographic scans and headache (*tip*), May, p. 189
congestive heart failure, platelet function in (*tip*), February, p. 173
contrast-media allergy, antianaphylaxis for, is described (*med*), May, p. 173
conversion hysteria, *March, p. 125
convulsions
—febrile, *February, p. 147
—febrile, therapy after two (*info pl*), January, p. 21
coronary arteriography, complications of (*tip*), January, p. 172
coronary artery spasm common in women (*news*), February, p. 189
coronary artery surgery, does, prolong life? (*tip*), February, p. 182
coronary heart disease, smoking and (*tip*), March, p. 178
'critical' patient and multiple organ failure (*ed*), June, p. 68
cyanide poisoning test necessary for patients treated with Laetrile (*news*), January, p. 206

d

dantrolene sodium, pleuropericardial reaction with (*tip*), April, p. 168
decubiti and nonhealing wounds of the lower extremities, treating, *March, p. 148
depression is often overlooked during office visits (*med*), February, p. 170
diabetes due to an abnormal insulin (*tip*), May, p. 187
diabetes insipidus and breast cancer (*tip*), January, p. 172
diabetes mellitus, noninsulin-dependent, management of, *February, p. 154
diabetic ketoacidosis (*tip*), March, p. 191
dialysis patients may develop carpal tunnel syndrome (*med*), January, p. 161
diarrhea, chronic nonspecific, in early childhood (*tip*), March, p. 195
diazoxide and neonatal hyperglycemia (*tip*), May, p. 179
digitalis toxicity, hallucinations and (*tip*), May, p. 198
diuretics, combining, in heart failure and renal disease (*info pl*), May, p. 28
diverticulitis, 'malignant' (*tip*), March, p. 172
drug action, duration of, *February, p. 119
ductus arteriosus, fetal, pharmacologic closure of (*tip*), January, p. 179
dumping, postgastrectomy, operation for (*tip*), June, p. 120
duodenal ulcer, treating: antacids or cimetidine? *June, p. 83
dyslexia, abnormalities in brain may cause (*news*), May, p. 208

e

echography's worth, study reveals, in diagnostic work-up (*med*), April, p. 156
electricity is used to unite lumbosacral fusions (*med*), April, p. 157
embolization for gastrointestinal hemorrhage (*tip*), April, p. 161
endarteritis, septic, and intra-arterial catheters (*tip*), March, p. 171
endocarditis, aortic valve (*tip*), January, p. 180
endocrine therapy treats some cases of sexual impotence (*news*), May, p. 208
endorphins, analgesic polypeptides:, *March, p. 155
endoscopy and upper gastrointestinal series (*tip*), March, p. 182
enteritis, Campylobacter (*tip*), May, p. 189
eosinophilia, cerebrospinal fluid (*tip*), April, p. 161
esophageal varices in alcoholics (*info pl*), January, p. 24
estrogen, study confirms benefits of (*news*), June, p. 127
ethanol ingestion (*tip*), March, p. 197
exercise testing after myocardial infarction (*tip*), January, p. 186

f

fatness in childhood and adolescence (*tip*), January, p. 186
febrile convulsions
—*February, p. 147
—therapy after two (*info pl*), January, p. 21
fever, high, child with (*ed*), March, p. 84
fibrinogen scans are useful in post-stroke care (*med*), January, p. 161
fine-needle aspiration cytology, *June, p. 89
fish from polluted water, eating (*info pl*), January, p. 21
fluorescein and cardiac arrest (*tip*), May, p. 195
foreign bodies, nasal (*tip*), January, p. 193
fungus infections, superficial, specific drugs for, *February, p. 164
fusions, lumbosacral, electricity is used to unite (*med*), April, p. 157

g

gallium-67 scan (*tip*), March, p. 172
gastroesophageal reflux in infants (*tip*), May, p. 196
giardiasis (*tip*), January, p. 185
glaucoma, beta blockers and, *April, p. 150
glucagon, effect of, on protein metabolism (*tip*), January, p. 196
glucose and insulin in parenteral nutrition (*tip*), June, p. 117

glucose tolerance test is poor indicator of hypoglycemia (*news*), March, p. 204
goiter and pregnancy (*tip*), March, p. 196
Guillain-Barré syndrome (*tip*), May, p. 188

h

hair assay pinpoints angel dust users (*med*), March, p. 161
hallucinations and digitalis toxicity (*tip*), May, p. 198
hand infections, treatment of, *May, p. 145
HDL levels, cigarette smoking appears to decrease (*med*), March, p. 165
headache(s)
—computerized tomographic scans and (*tip*), May, p. 189
—hints on diagnosing (*ed*), January, p. 85
health
—and illness behavior (*tip*), May, p. 180
—mental and physical, correlations of (*tip*), May, p. 190
hearing impairment, congenital, *March, p. 101
heart failure
—acute, new approaches to therapy of, *February, p. 131
—congestive, platelet function in (*tip*), February, p. 173
—and renal disease, combining diuretics in (*info pl*), May, p. 28
Hemophilus influenzae, unsuspected bacteremia and (*tip*), March, p. 190
hemorrhage
—gastrointestinal, embolization for (*tip*), April, p. 161
—intracranial, diagnosing (*tip*), June, p. 118
—posterior fossa (*tip*), January, p. 200
heparin therapy, thrombocytopenia during (*tip*), January, p. 180
hepatitis
—chronic aggressive (*tip*), February, p. 176
—viral, *May, p. 156
heroin addiction, new treatment found for (*news*), April, p. 183
herpes zoster neuralgia, early nerve blocks seem to cure (*med*), February, p. 169
hip pain, concomitant bladder and (*info pl*), May, p. 24
Hirschsprung's disease (*tip*), March, p. 180
home- and hospital-born infants display different behavior (*med*), January, p. 167
hyperactive?', 'doctor, is my child, *May, p. 105
hyperalimentation, acalculous cholecystitis and (*tip*), April, p. 167
hyperglycemia, neonatal, diazoxide and (*tip*), May, p. 179
hyperkinetic child, methylphenidate and (*tip*), February, p. 181
hyperparathyroidism, pancreatitis and (*tip*), May, p. 187
hypersplenism and splenorenal shunt (*tip*), March, p. 175
hypertension
—mild, requires treatment, study says (*news*), February, p. 185
—mild, treat (*ed*), April, p. 86
—pulmonary, and SLE (*tip*), May, p. 196
—can be reduced with relaxation training (*med*), March, p. 161
—renovascular (*tip*), March, p. 190
hypertension treatment, noncompliance hinders (*news*), May, p. 211
hypertensive emergencies, *March, p. 141
hypoglycemia, glucose tolerance test is poor indicator of (*news*), March, p. 204
hypokalemia associated with nafcillin therapy (*tip*), January, p. 196
hypothermia, accidental, dangerous for elderly (*news*), January, p. 208
hysteria, conversion, *March, p. 125

i

ibuprofen, adverse reactions to (*tip*), January, p. 179
impotence, sexual, endocrine therapy treats some cases of (*news*), May, p. 208
inferior vena cava, obstruction of (*tip*), January, p. 187
influenza and influenza vaccination, *January, p. 101
insomnia, cigarette smoking increases, study indicates (*news*), April, p. 182
insulin
—abnormal, diabetes due to an (*tip*), May, p. 187
—glucose and, in parenteral nutrition (*tip*), June, p. 117
insulin receptor binding in obesity (*tip*), February, p. 173
insulin sensitivity after physical training (*tip*), May, p. 181
intercourse and amniotic fluid infections (*tip*), April, p. 170
intussusception, altered consciousness in (*tip*), January, p. 187
IUDs, removed, pathologist stresses laboratory analyses of (*med*), April, p. 155

j
k

Kawasaki disease (*tip*), January, p. 171
ketoacidosis, diabetic (*tip*), March, p. 191
knee, painful, chondromalacia patellae and, *January, p. 117

l

Laetrile
—cyanide poisoning test necessary for patients treated with (*news*), January, p. 206
—FDA gives approval for NCI testing of, on humans (*news*), March, p. 208
learning disability appears to be sequela of tick fever (*med*), May, p. 174
leukemia, acute lymphoblastic, survivors of (*tip*), March, p. 187
lip cancer, recurrent, risks of, are calculated (*med*), January, p. 167
liver disease, cirrhosis risk in, study elucidates (*med*), January, p. 161
lumbar sympathectomy for limb salvage (*tip*), January, p. 188
Lyme disease (*tip*), January, p. 179
lymphedema, congenital, in infants and children (*tip*), March, p. 198

m

manic-depressives, cell membrane abnormality in (*tip*), January, p. 194
meningitis in infants (*tip*), April, p. 175
menopausal flushes (*tip*), January, p. 201
methylphenidate and the hyperkinetic child (*tip*), February, p.181
microcephaly (*tip*), May, p. 183
middle ear ventilating tubes (*info pl*), January, p. 28
migraine and exposure to the sun (*tip*), May, p. 182
migraine patients, hepatic function in (*tip*), January, p. 172
mitral valve prolapse (*tip*), January, p. 200
mitral valve systolic click syndrome, *May, p. 135
molsidomine and angina pectoris (*tip*), May, p. 180
motor vehicle deaths, childhood (*tip*), May, p. 195
mumps, atypical, may occur in immunized children (*med*), April, p. 156
myocardial infarction
- —exercise testing after (*tip*), January, p. 186
- —sulfinpyrazone after (*tip*), May, p. 182

n

nafcillin therapy, hypokalemia associated with (*tip*), January, p. 196
near-drowning, childhood, neurologic sequelae after (*tip*), January, p. 202
neck wounds, penetrating (*tip*), January, p. 171
neonatal mortality (*tip*), January, p. 178
nephropathy, analgesic (*info pl*), January, p. 21
nerve blocks, early, seem to cure herpes zoster neuralgia (*med*), February, p. 169
neuralgia, herpes zoster, early nerve blocks seem to cure (*med*), February, p. 169
nitroprusside, sudden withdrawal from (*tip*), April, p. 178
nutrition guidelines will be revised (*news*), February, p. 186
nutritional rehabilitation, treatment goal for anorexia: (*news*), June, p. 125

o

obese men, morbidly, causes of death in (*tip*), June, p. 111
obesity
- —childhood (*tip*), June, p. 112
- —insulin receptor binding in (*tip*), February, p. 173

organ failure, multiple, the 'critical' patient and (*ed*), June, p. 68
otitis, external, a guide for the treatment of, *June, p. 96

p

pancreatic necrosis, serum ribonuclease and (*tip*), February, p. 174
pancreatic pseudocysts (*tip*), June, p. 112
pancreatitis
- —and hyperparathyroidism (*tip*), May, p. 187
- —and thiazide administration (*tip*), January, p. 201

Pap test, routine, appears to be neglected in poor women (*med*), February, p. 169
parenteral nutrition, glucose and insulin in (*tip*), June, p. 117
patent ductus arteriosus, treatment of (*tip*), March, p. 196
penicillin allergy can be safely desensitized (*med*), May, p. 173
perinatal mortality, cesarean section and (*tip*), January, p. 193
'pitcher's elbow', study evaluates, in teenage ball players (*med*), March, p. 166
platelet and leukocyte counts in pregnancy (*tip*), March, p. 188
platelet survival, diminished, is linked to atherosclerosis (*med*), March, p. 165
pleural fluid protein estimation (*tip*), April, p. 168
poisoning, pennyroyal oil (*tip*), May, p. 188
polyneuropathy, childhood (*tip*), March, p. 197
posterior fossa hemorrhage (*tip*), January, p. 200
postsplenectomy infection (*tip*), March, p. 179
post-stroke care, fibrinogen scans are useful in (*med*), January, p. 161
potassium levels and neuromuscular symptoms (*info pl*), May, p. 23
pregnancy
- —dangers of smoking during, reported (*news*), January, p. 203
- —goiter and (*tip*), March, p. 196
- —platelet and leukocyte counts in (*tip*), March, p. 188
- —renal transplants and (*tip*), April, p. 169

premature infants, respiratory problems in, test can detect (*news*), February, p. 189
procaine, intravenous (*tip*), April, p. 170
prosthetic valve infection (*info pl*), May, p. 23
protein metabolism, effect of glucagon on (*tip*), January, p. 196
psoriasis risk, survey reveals pattern of, in families (*med*), January, p. 167
psychiatric illness in the elderly, *January, p. 109

q

r

radiation oncology, *April, p. 131
radiotherapy, intraoperative (*tip*), June, p. 111
Raynaud's disease and phenomenon, *January, p. 91
renal cortical abscess, unusual complications of (*tip*), March, p. 187
renal cytology, part II: urine cytology, *April, p. 102
renal disease, heart failure and, combining diuretics in (*info pl*), May, p. 28
renal transplants and pregnancy (*tip*), April, p. 169
resuscitation procedure, disease transmission by (*tip*), May, p. 198
ribonuclease, serum, and pancreatic necrosis (*tip*), February, p. 174

s

salicylate-induced ulcers, regimen for, is described (*med*), April, p. 155
salicylates in milk expose infants to significant amount (*med*), May, p. 174
sarcoidosis and splenomegaly (*tip*), May, p. 190
scalp vein, infant's, placing a needle in, *January, p. 139
scared to death' may be a real situation (*med*), April, p. 155
self-hypnosis seems to diminish asthma attacks (*med*), May, p. 173
sepsis, intra-abdominal, *April, p. 118
shigellosis outbreak (*tip*), February, p. 182
sickle cell anemia (*tip*), March, p. 178
SIDS-prone infants, brain stem function test may identify (*med*), January, p. 162
SLE, pulmonary hypertension and (*tip*), May, p. 196
smoking
- —cigarette, appears to decrease HDL levels (*med*), March, p. 165
- —cigarette, changes in (*tip*), April, p. 176
- —cigarette, increases insomnia, study indicates (*news*), April, p. 182
- —and coronary heart disease (*tip*), March, p. 178
- —dangers of, during pregnancy reported (*news*), January, p. 203

Spanish-surnamed children, growth of (*tip*), January, p. 202
spirometry, office, *April, p. 111
splenomegaly, sarcoidosis and (*tip*), May, p. 190
splenorenal shunt, hypersplenism and (*tip*), March, p. 175
starvation, severe, respiratory status in, is analyzed (*med*), February, p. 169
stones, retained, cholate sodium infusion for (*tip*), March, p. 174
streptococcal pharyngitis therapy (*tip*), March, p. 182
sulfinpyrazone after myocardial infarction (*tip*), May, p. 182
supraventricular tachycardia, outcome of, is assessed (*med*), May, p. 174

t

tetrahydrocannabinol as an antiemetic (*tip*), May, p. 179
thiazide administration, pancreatitis and (*tip*), January, p. 201
throat cultures in the office, *June, p. 72
thrombocytopenia during heparin therapy (*tip*), January, p. 180
thrombosis, prevention of, with antiplatelet drugs, *May, p. 166
thyroid function tests, *May, p. 116
thyroidectomy, total, for cancer (*tip*), March, p. 190
TIAs, statistics on, in Framingham study are reported (*med*), March, p. 161
tick fever, learning disability appears to be sequela of (*med*), May, p. 174
tinnitus, tocainide holds promise as a therapy for (*med*), January, p. 162
tocainide holds promise as a therapy for tinnitus (*med*), January, p. 162
trichinosis (*tip*), June, p. 120
tricyclic antidepressant toxicity, *June, p. 104
trimethoprim-sulfamethoxazole, intravenous (*tip*), March, p. 174
tuberculin screening (*tip*), April, p. 176
tubulointerstitial diseases, *January, p. 128
tumor antigens, human, serologic analysis of (*tip*), January, p. 194
tumors
- —cardiac, echocardiographic diagnosis of (*tip*), May, p. 183
- —pancreatic, primary endocrine-secreting, *April, p. 94

u

ulcers, salicylate-induced, regimen for, is described (*med*), April, p. 155
upper gastrointestinal series, endoscopy and (*tip*), March, p. 182
urinary tract cytology, part I: urine cytology, *March, p. 92
urine, blood in, false-positive test for (*tip*), February, p. 176
urothelial cancer may be linked to occupational factors (*med*), February, p. 170

v

vaccination, influenza, influenza and, *January, p. 101
valproic acid, hepatotoxic effect of (*tip*), January, p. 178
verapamil in chronic atrial fibrillation (*tip*), January, p. 185
vomiting patient, *February, p. 139

w

wrist surgery appears effective in abating arthritis (*med*), April, p. 157

x

Subject Index

a

acetaminophen hepatotoxicity and overdose, *July, p. 83
alcohol-digitalis mix may enhance toxicity (*news*), October, p. 206
allopurinol and interstitial nephritis (*info pl*), July, p. 131
amenorrhea, *December, p. 95
ampicillin rashes (*tip*), August, p. 161
anemia(s)
- —megaloblastic, *December, p. 128
- —of renal disease (*info pl*), October, p. 41

aneurysmectomy, aortic, volume loading and (*tip*), October, p. 193
angina, atypical (*tip*), December, p. 148
angioplasty, percutaneous transluminal (*tip*), August, p. 158
angiotensin-converting enzyme inhibitors, *November, p. 164
ankle, ligamentous injuries of, *August, p. 132
anorectal disorders, *October, p. 121
antidepressant, new, compares favorably to traditional therapy (*news*), December, p. 162
aortocoronary bypass, employment after (*tip*), July, p. 152
aortoiliac reconstruction and pelvic blood flow (*tip*), July, p. 148
arsenic poisoning (*tip*), July, p. 152
arterial insufficiency, vasodilators for, *July, p. 128
arteritis
- —cranial, oral manifestations of (*tip*), November, p. 195
- —temporal, painless (*tip*), September, p. 198

arthritis, gouty, drug of choice for (*info pl*), October, p. 41
arthropathy, rheumatoid-like, and colonic carcinoma (*tip*), September, p. 202
arthroscopic surgery, advantages of, are weighed (*news*), November, p. 209
aspiration pneumonia, adult, *July, p. 73
aspirin exposure may cause neonatal brain hemorrhage (*med*), September, p. 179

b

barium enema, two-day bowel prep improves quality of (*med*), October, p. 163
Behçet's disease (*tip*), December, p. 150
beta-adrenergic blockers, new, *August, p. 142
bladder neck opening, phenoxybenzamine and (*tip*), November, p. 194
blood pressure response to isometric exercise (*tip*), October, p. 180
bone marrow transplants in refractory leukemia (*tip*), October, p. 185
breast cancer, multicentric nonpalpable (*tip*), November, p. 205
breast tumor after augmentation mammoplasty (*tip*), July, p. 141
bromocriptine, effects of, on migraine patients (*tip*), July, p. 146
bronchial lavage fluid harbors a sign of potential cancer (*med*), October, p. 163
bronchogenic carcinoma
- —calcitonin levels in (*tip*), September, p. 207
- —occult (*tip*), September, p. 186

bronchospasm, salbutamol and (*tip*), December, p. 148
burn dressing, skin substitute shows promise as (*med*), July, p. 135

c

calcitonin levels in bronchogenic carcinoma (*tip*), September, p. 207
calcitonin synthesis, lungs appear to be a source of (*med*), November, p. 169
cancer
- —breast, multicentric nonpalpable (*tip*), November, p. 205
- —cervical, requiring hysterectomy needs diligent watch (*med*), September, p. 179
- —colon, mucosal changes may be a forerunner of (*med*), July, p. 135
- —colorectal, screening for (*tip*), November, p. 182
- —hypercalcemia and (*tip*), November, p. 189
- —metastatic, of unknown primary site, *September, p. 164
- —pancreatic, serum ribonuclease and (*tip*), August, p. 151
- —potential, bronchial lavage fluid harbors a sign of (*med*), October, p. 163
- —testicular, advances made in treatment of (*news*), September, p. 221

cancer rates equalize across United States (*news*), July, p. 159
captopril therapy, proteinuria during (*tip*), November, p. 187
carcinoma
- —bronchogenic, calcitonin levels in (*tip*), September, p. 207
- —bronchogenic, occult (*tip*), September, p. 186
- —colonic, rheumatoid-like arthropathy and (*tip*), September, p. 202

cardiac massage, splenic rupture after (*tip*), July, p. 141
cardiac rehabilitation, *October, p. 152

carotid sinus reflex control, alterations in (*tip*), September, p. 185
carpal tunnel syndrome
—(*tip*), July, p. 154
—in the puerperium (*tip*), September, p. 186
catheters, percutaneous subclavian vein (*tip*), July, p. 150
CEA-initiated second-look surgery (*tip*), September, p. 198
cervical cancer requiring hysterectomy needs diligent watch (*med*), September, p. 179
cervical caps, limitation imposed on, by FDA ruling (*news*), November, p. 209
cesareans, trend toward more, continues without evaluation (*news*), August, p. 168
chest x-rays, preoperative, in infants and children (*tip*), December, p. 153
chills, shaking, and fever, treatment of (*tip*), July, p. 146
chloroquine poisoning (*tip*), September, p. 184
choledochoscopic removal of retained stones (*tip*), September, p. 192
cholera in Louisiana (*tip*), September, p. 207
cimetidine lessens hair growth in hirsute women (*med*), November, p. 169
cimetidine prophylaxis after head injury (*tip*), July, p. 156
cimetidine therapy, long-term (*info pl*), July, p. 133
coccidioidomycosis, recognizing, *September, p. 133
cold injury in the elderly (*info pl*), November, p. 23
colon cancer, mucosal changes may be a forerunner of (*med*), July, p. 135
colonic carcinoma, rheumatoid-like arthropathy and (*tip*), September, p. 202
colorectal cancer, screening for (*tip*), November, p. 182
colorectal disease, high-fiber diet and, *July, p. 120
conjunctivitis, chronic unilateral: consider malignancy, *July, p. 69
contraceptive, long-acting, in adolescents (*tip*), August, p. 151
COPD therapy, study provides hints to improve (*med*), October, p. 163
coronary artery spasm(s)
—(*tip*), December, p. 153
—and magnesium deficiency (*tip*), September, p. 208
coronary bypass is used to treat myocardial infarction (*med*), September, p. 180
coronary endarterectomy and bypass grafting (*tip*), July, p. 142
coronary heart disease in women (*tip*), September, p. 194
corticosteroid injections, local (*tip*), October, p. 188
corticosteroids, systemic, skin tearing and (*tip*), September, p. 188
cricopharyngeal dysfunction, normal studies do not exclude (*med*), July, p. 136

d

death act, uniform, Washington adopts (*news*), December, p. 158
diabetes, effect of, on the thyroid is explored (*med*), October, p. 167
diabetic vascular disease and smoking (*ed*), July, p. 64
diet, high-fiber, and colorectal disease, *July, p. 120
dopamine, peripheral ischemia and gangrene from (*tip*), September, p. 204
dysphagia, *November, p. 154

e

elbow, epiphyseal fractures of, in children, *November, p. 107
elderly
—cold injury in (*info pl*), November, p. 23
—survey unfolds facts about (*news*), September, p. 216
emergency care, patients tend to overestimate need for (*news*), September, p. 221
epileptic focus, prolactin level may pinpoint (*med*), November, p. 169
ergotamine, effects of, on carotid blood flow (*tip*), September, p. 188
estrogen receptor analysis (*tip*), October, p. 186
estrogen receptor proteins in human tumors (*tip*), September, p. 202
ethylene glycol ingestion (*tip*), October, p. 177
exercise
—isometric, blood pressure response to (*tip*), October, p. 180
—relaxation, patient wards off eye hemorrhage with (*med*), July, p. 135
exercise testing in hypertensive adolescents (*tip*), October, p. 188
eye cytology, *December, p. 120

f

facial trauma, soft tissue, *October, p. 131
failure to thrive (*tip*), November, p. 187
failure to thrive patients respond best to team approach treatment (*news*), September, p. 215
family encounter, extended, *September, p. 119
fecal impactions in renal patients (*tip*), September, p. 191
feeding tube, easy insertion of (*tip*), November, p. 200
ferritin (*tip*), November, p. 190
fetal alcohol syndrome, *July, p. 113
fever, shaking chills and, treatment of (*tip*), July, p. 146
food allergy
—current concepts in, *August, p. 95
—fact or fancy (*ed*), August, p. 82
fractures, epiphyseal, of the elbow in children, *November, p. 107
fungal infections, drugs for, *October, p. 145

g

gangrene, peripheral ischemia and, from dopamine (*tip*), September, p. 204
gastric bypass, complications of (*tip*), August, p. 162
giardiasis (*tip*), August, p. 162
gonorrhea, anorectal, in men (*tip*), October, p. 180
grand mal epilepsy, phenobarbital vs. phenytoin for, *August, p. 123

Group B beta-hemolytic streptococcal sepsis in the neonate, *September, p. 107

h

head injury, cimetidine prophylaxis after (*tip*), July, p. 156
heart attack, second, therapy may prevent (*news*), December, p. 157
heartworm, dog, in man (*tip*), August, p. 152
hematuria, factitious (*tip*), August, p. 156
hemodilution, intraoperative isovolemic (*tip*), November, p. 200
Hemophilus influenzae Type B disease (*tip*), December, p. 145
hemorrhage
—eye, patient wards off, with relaxation exercise (*med*), July, p. 135
—massive colonic, management of (*tip*), November, p. 182
—neonatal brain, aspirin exposure may cause (*med*),September, p. 179
hepatic failure, hypernatremia in (*tip*), August, p. 158
hepatic friction rubs and uremia (*tip*), August, p. 151
hepatitis, granulomatous, and quinidine (*tip*), September, p. 183
hepatitis B vaccine, researchers formulate (*news*), December, p. 157
hepatomegaly in hemodialysis patients (*tip*), September, p. 194
herniated disc, microsurgery produces good outcome in (*med*), November, p. 173
herpes simplex labialis (*tip*), September, p. 186
herpes zoster, lymphoma with, *August, p. 117
hirsute women, cimetidine lessens hair growth in (*med*), November, p. 169
Hodgkin's disease
—sputum diagnosis of (*tip*), November, p. 195
—staging laparotomy in (*tip*), November, p. 192
Huntington's disease, *July, p. 91
hydralazine-induced SLE (*tip*), August, p. 162
hydrocephalic children, ventriculoperitoneal shunts in (*tip*), October, p. 173
hyperaldosteronism, liver metastases and (*tip*), December, p. 146
hypercalcemia and cancer (*tip*), November, p. 189
hypernatremia in hepatic failure (*tip*), August, p. 158
hyperparathyroidism (*tip*), July, p. 156
hypertension
—maternal, and infant IRDS (*tip*), September, p. 191
—systolic (*tip*), October, p. 181
—and trauma to the central nervous system (*tip*), October, p. 194
hypertensive adolescents, exercise testing in (*tip*), October, p. 188
hypertensive crisis, selection of drugs for, *December, p. 141
hypoalbuminemia after renal transplantation (*tip*), October, p. 193
hypoparathyroidism and pregnancy (*tip*), August, p. 164

i

^{123}I, thyroid uptake of (*tip*), October, p. 180
IHSS, myocardial infarction in (*tip*), November, p. 197
imipramine, analgesic effect of, is evaluated (*med*), November, p. 173
immunizations for travelers (*ed*), September, p. 88
indomethacin, effects of, on glucagon (*tip*), July, p. 142
infant feeding practices (*tip*), October, p. 172
infant nutrition made simple, *October, p. 113
infertility due to prolactin level, coping with (*news*), October, p. 199
institutionalization, alternatives to, *July, p. 95
insulin, human, value of (*info pl*), November, p. 23
insulin pump, tests begin on (*news*), September, p. 220
insulinoma, long-term follow-up of (*tip*), November, p. 177
interferon may become more accessible in U.S. (*news*), August, p. 170
in-toeing (*tip*), October, p. 181
IRDS, infant, maternal hypertension and (*tip*), September, p. 191

j
k

Kawasaki disease (*tip*), October, p. 177
kidney disease, immunologic, *November, p. 87

l

leukemia, refractory, bone marrow transplants in (*tip*), October, p. 185
leukemia patients, longer remission for, with new therapy (*news*), November, p. 214
leukemia relapses may be predictable (*news*), November, p. 213
ligamentous injuries of the ankle, *August, p. 132
Limulus amebocyte lysate assay, *September, p. 125
liver disease, screening tests for (*info pl*), October, p. 43
liver metastases and hyperaldosteronism (*tip*), December, p. 146
lungs appear to be a source of calcitonin synthesis (*med*), November, p. 169
lupus erythematosus: diagnosis and therapy (*news*), October, p. 203
lymph node dissection in melanoma (*tip*), November, p. 198
lymphoma
—with herpes zoster, *August, p. 117
—preoperative evaluation in (*tip*), September, p. 208

m

magnesium deficiency, coronary artery spasms and (*tip*), September, p. 208
malnutrition prevalent after general surgery (*news*), July, p. 160
mammoplasty, augmentation, breast tumor after (*tip*), July, p. 141

marijuana, criteria separate users and abusers of (*news*), September, p. 224
melanoma, lymph node dissection in (*tip*), November, p. 198
mental retardation, current concepts in, *October, p. 139
mercury, metallic (*tip*), August, p. 154
metastatic cancer of unknown primary site, *September, p. 164
microsurgery produces good outcome in herniated disc (*med*), November, p. 173
migraine patients, effects of bromocriptine on (*tip*), July, p. 146
milk, human, another property in, is detected (*med*), October, p. 167
mitral valve prolapse and cerebral ischemia (*tip*), August, p. 154
mucosal changes may be a forerunner of colon cancer (*med*), July, p. 135
myasthenia gravis
—effect of thymectomy on, is studied (*med*), July, p. 136
—pharmacology of, *October, p. 158
myocardial infarction
—chest x-ray and (*tip*), November, p. 178
—coronary bypass is used to treat (*med*), September, p. 180
—in IHSS (*tip*), November, p. 197

n

naloxone use in newborns (*tip*), August, p. 160
nephritis, interstitial, allopurinol and (*info pl*), July, p. 131
neuromuscular disorders in thyrotoxicosis, *September, p. 97
nipple discharge, *November, p. 101
nitrofurantoin, pulmonary reaction to (*tip*), August, p. 156
nursing home care, family physician and, *November, p. 137
nutrition, infant, made simple, *October, p. 113
nutritional supplementation, prenatal (*tip*), September, p. 184

o

obesity, pathogenesis of, in boys (*tip*), July, p. 150
osteoporosis, primary, combination therapy for (*tip*), July, p. 144

p

pancreatic cancer, serum ribonuclease and (*tip*), August, p. 151
pancreatitis, chronic, common duct stricture and (*tip*), October, p. 186
Pap smear, annual, ACOG continues to recommend (*news*), October, p. 202
parasitology, office, *August, p. 86
paroxysmal supraventricular tachycardia in the infant, *September, p. 145
perinatal death, helping parents cope with, *November, p. 121
phencyclidine abuse (*tip*), November, p. 177
phenobarbital vs. phenytoin for grand mal epilepsy, *August, p. 123
phenoxybenzamine and bladder neck opening (*tip*), November, p. 194
phenytoin, phenobarbital vs., for grand mal epilepsy, *August, p. 123
pill-bottle desiccant (*tip*), December, p. 147
pituitary adenomas, postmortem study reveals prevalence of (*med*), October, p. 167
placebo, therapeutics of, *July, p. 105
plague (*tip*), December, p. 152
pleuritis, fibrosing, in uremia (*tip*), November, p. 189
pneumococcal vaccine (*info pl*), July, p. 131
pneumonia, pointing test and (*tip*), July, p. 146
posture, effect of, on respiratory mechanics is studied (*med*), September, p. 180
pregnancy, hypoparathyroidism and (*tip*), August, p. 164
preventive medicine needs scrutiny (*news*), August, p. 167
prolactin level
—infertility due to, coping with (*news*), October, p. 199
—may pinpoint an epileptic focus (*med*), November, p. 169
propranolol, chronic oral, effects of (*tip*), July, p. 154
prosthetic grafts, infected (*tip*), November, p. 197
pruritus, uremic, treatment of (*tip*), October, p. 172
pulmonary embolism, radiographic signs of, *October, p. 103

q

quinidine, granulomatous hepatitis and (*tip*), September, p. 183

r

radiation hazards, environmental, *October, p. 95
Raynaud's phenomenon in thyroid deficiency (*tip*), December, p. 152
rehabilitation
—cardiac, *October, p. 152
—of the elderly stroke patient, *September, p. 153
renal disease
—anemia of (*info pl*), October, p. 41
—prenatal complications may foreshadow (*med*), September, p. 179
renal failure, acute, ticrynafen-induced (*tip*), September, p. 183
renal patients, fecal impactions in (*tip*), September, p. 191
renal transplantation, hypoalbuminemia after (*tip*), October, p. 193
respiratory distress, investigators closer to understanding (*news*), October, p. 200
ribonuclease, serum, and pancreatic cancer (*tip*), August, p. 151
rubella vaccination (*tip*), December, p. 148
runners, gastrointestinal disturbances in (*tip*), November, p. 198

s

salbutamol and bronchospasm (*tip*), December, p. 148
seductive patient, *August, p. 111
senile dementia, management of, *December, p. 105
sexual activity, report shows degree of, among adolescents (*news*), July, p. 162

sickle cell anemia, ultrasound can detect (*news*), September, p. 215
sigmoidoscope, flexible fiberoptic (*tip*), December, p. 146
silicosis (*tip*), November, p. 194
sinusitis, frontal, cranial complications of, *November, p. 145
skeletal infection, oral antibiotics for (*tip*), November, p. 180
skin substitute shows promise as a burn dressing (*med*), July, p. 135
skin tearing and systemic corticosteroids (*tip*), September, p. 188
SLE, hydralazine-induced (*tip*), August, p. 162
sleep difficulty and cigarette smoking (*tip*), September, p. 183
sleep history, taking, *August, p. 100
smoking
—cigarette, sleep difficulty and (*tip*), September, p. 183
—diabetic vascular disease and (*ed*), July, p. 64
sphygmomanometer, calibrating your (*ed*), October, p. 90
splenectomy, vacuolated erythrocytes after (*tip*), December, p. 150
splenic rupture after cardiac massage (*tip*), July, p. 141
splenic trauma (*tip*), September, p. 204
stab wounds, abdominal (*tip*), November, p. 190
streptococcal sepsis, Group B beta-hemolytic, in the neonate, *September, p. 107
stroke patient, elderly, rehabilitation of, *September, p. 153
stroke recovery, age does not seem to matter in (*med*), September, p. 180
subclavian-vertebral arterial disease (*tip*), October, p. 185
suicide, teenage (*tip*), December, p. 147
syphilis, primary and secondary (*tip*), November, p. 206

t

tachycardia, paroxysmal supraventricular, in the infant, *September, p. 145
testicular cancer, advances made in treatment of (*news*), September, p. 221
thrombosis, mesenteric venous (*tip*), November, p. 178
thymectomy, effect of, on myasthenia gravis is studied (*med*), July, p. 136
thyroid, effect of diabetes on, is explored (*med*), October, p. 167
thyroid deficiency, Raynaud's phenomenon in (*tip*), December, p. 152
thyroid uptake of ^{123}I (*tip*), October, p. 180
thyrotoxicosis, neuromuscular disorders in, *September, p. 97
ticrynafen-induced acute renal failure (*tip*), September, p. 183
timolol, topical (*tip*), October, p. 171
toxic shock syndrome
—(*tip*), October, p. 171
—(*ed*), December, p. 86
toxoplasmosis linked to cats (*tip*), November, p. 206
tuberculosis, gastrointestinal (*tip*), September, p. 191
tumors
—human, estrogen receptor proteins in (*tip*), September, p. 202
—pediatric brain, new approach controls (*news*), November, p. 213
typhlitis (*tip*), August, p. 161

u

ulcers
—gastrointestinal, due to drugs (*tip*), September, p. 185
—new treatment for, is promising (*news*), October, p. 199
ultrasound can detect sickle cell anemia (*news*), September, p. 215
umbilical stump, a simple method for drying, *December, p. 115
uremia
—fibrosing pleuritis in (*tip*), November, p. 189
—hepatic friction rubs and (*tip*), August, p. 151
urolithiasis, pediatric (*tip*), November, p. 194

v

vaccination, rubella (*tip*), December, p. 148
vaccine, hepatitis B, researchers formulate (*news*), December, p. 157
varicella-zoster immune globulin (*tip*), July, p. 144
varicose veins, occlusive suturing of (*info pl*), November, p. 26
vasodilators for arterial insufficiency, *July, p. 128
ventricular function, perioperative assessment of (*tip*), October, p. 178
ventriculoperitoneal shunts in hydrocephalic children (*tip*), October, p. 173
vitamin D as a hormone, *September, p. 172
vulnerable children (*tip*), October, p. 178

w

walking to improve physical fitness (*tip*), December, p. 145
weight loss, excessive, in young athletes (*tip*), December, p. 152
Wernicke-Korsakoff syndrome, *November, p. 129
Wolff-Parkinson-White syndrome in healthy patients (*info pl*), October, p. 41

x

y

young athletes, injuries to (*tip*), September, p. 210

z

Zollinger-Ellison syndrome (*tip*), November, p. 180
